MAISON ELITE INC.

Bright*DIAMOND* DC Series

Silence and Extreme Performance

Amethyst with Cool Blue LED

Moon Stone with 6000K LED

Black Onyx with Cool Blue LED

Smart Feature: Motion Activated LED Lighting

Inside your cabinet this makes all the difference in the world! No more fishing around in the dark!

No LED Lighting

LED Lighting

BrightDIAMOND gives you full cabinet lighting

3W 360° Surround LED Light

You can see every angle inside your cabinet

Revolutionary 270° Wide Sensor Angle

Versatile 3 sensors ensures a wide detection angle, instantly activating the surround light in any plumbing setup

90 Seconds

Stays on for 90 Secs after you stop moving – perfect for hands-free convenience

Motion Activated LED Lighting

Waste disposers with

Features

TriFlange

Improved design compatible with other flanges. Makes replacement easy

Silver Ion infused Upper Chamber

Eliminates bacteria and odors

Stainless Steel Chamber and Blades

Hardened stainless steel components cut through waste and remain sharp for years of reliable service

Insulated Housing

Greatly reduces noise

Pre-Wired Cord

Makes installation easy

Noise Suppression Design

All components and moving parts are designed to reduce noise and vibration

Stainless Steel Stopper

Durable, allows for years of use

Motion Activated LED Lighting

The waste disposer can be installed in any position and the light will come on when the door is open

Dynamic Splash Guard

Suppresses noise and odours

4 Stage Grinding Technology

Slotted Multi layered grinding chamber quickly grinds waste for fast disposal

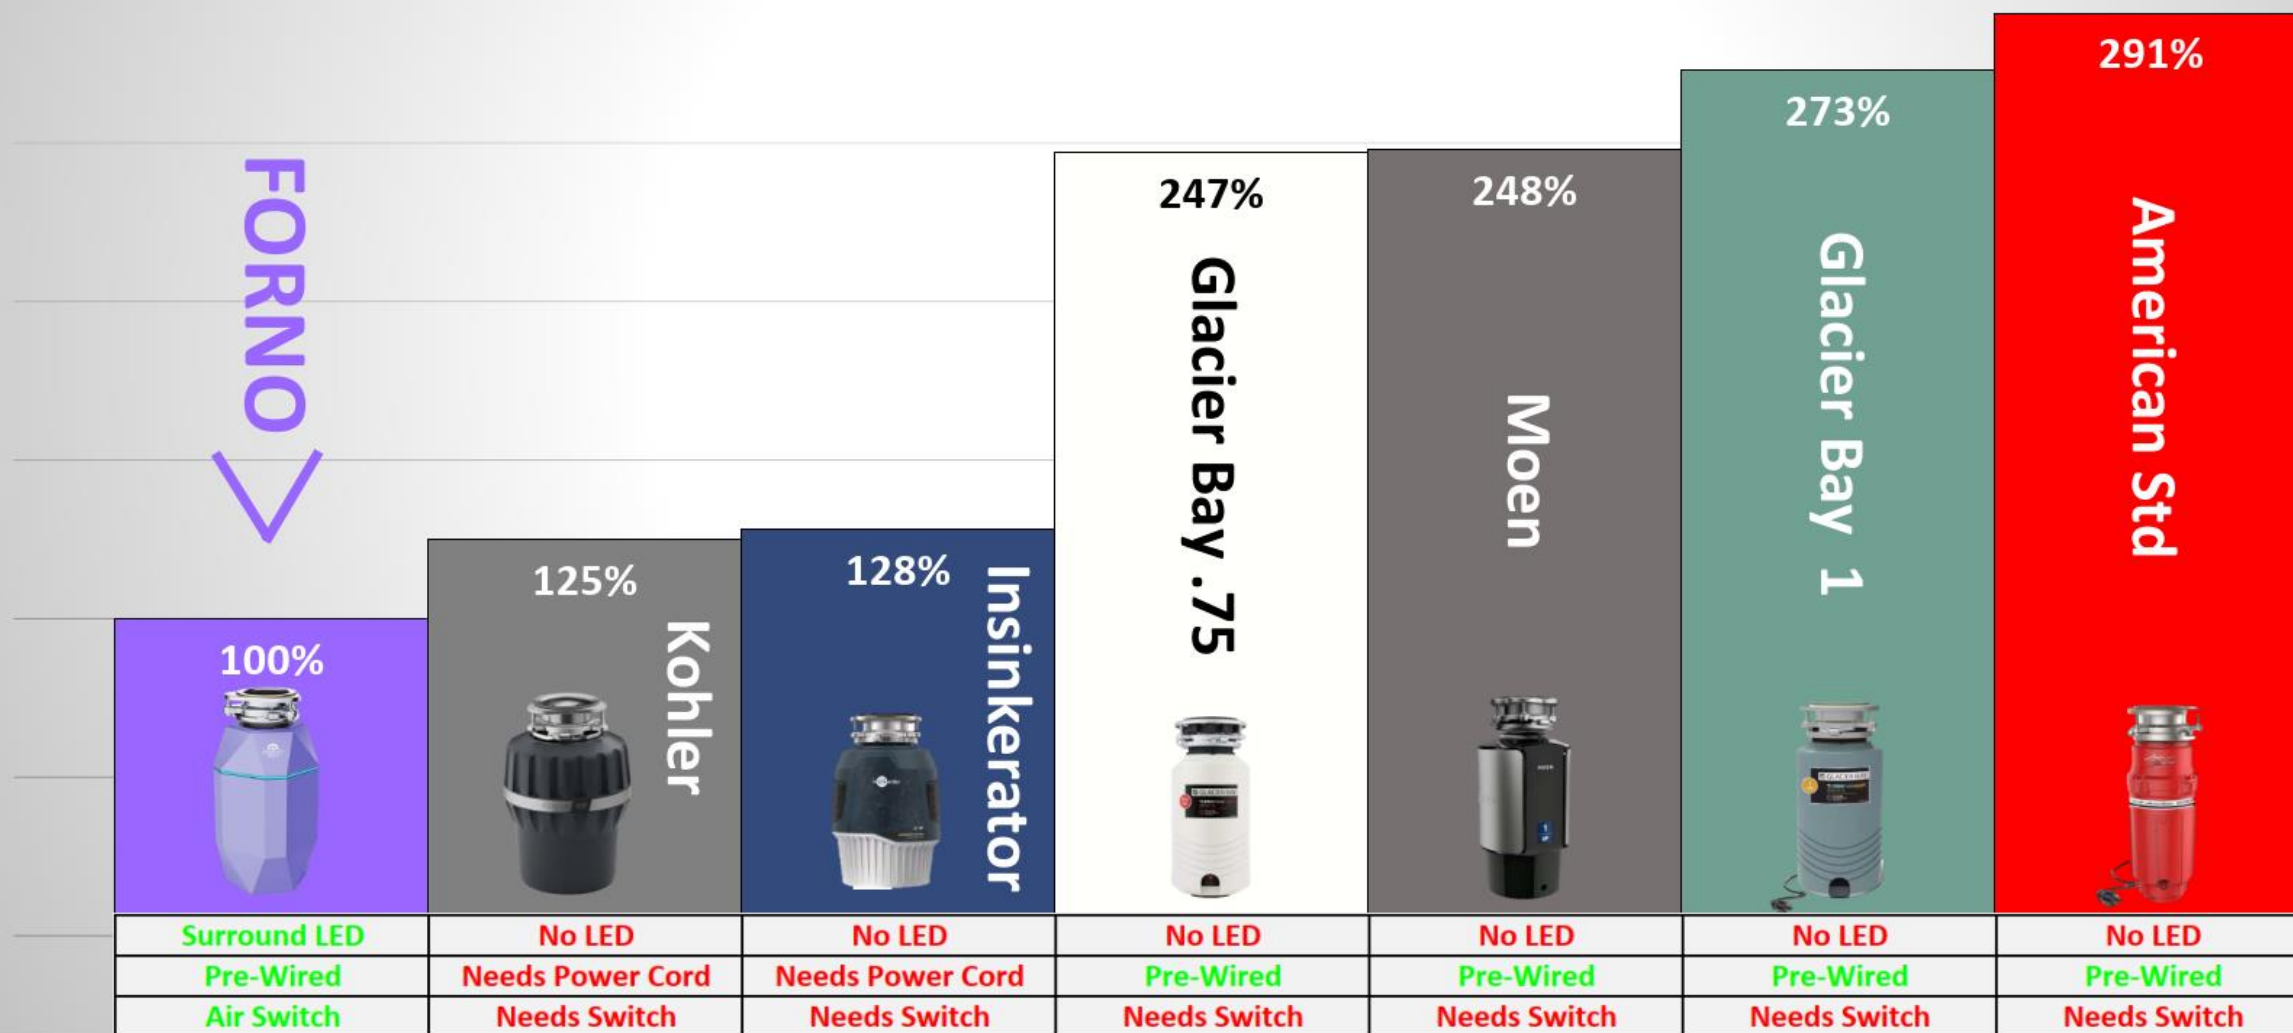

Pre-Wired Air Switch

Makes installation and operation easy

Perceived Loudness with No Water

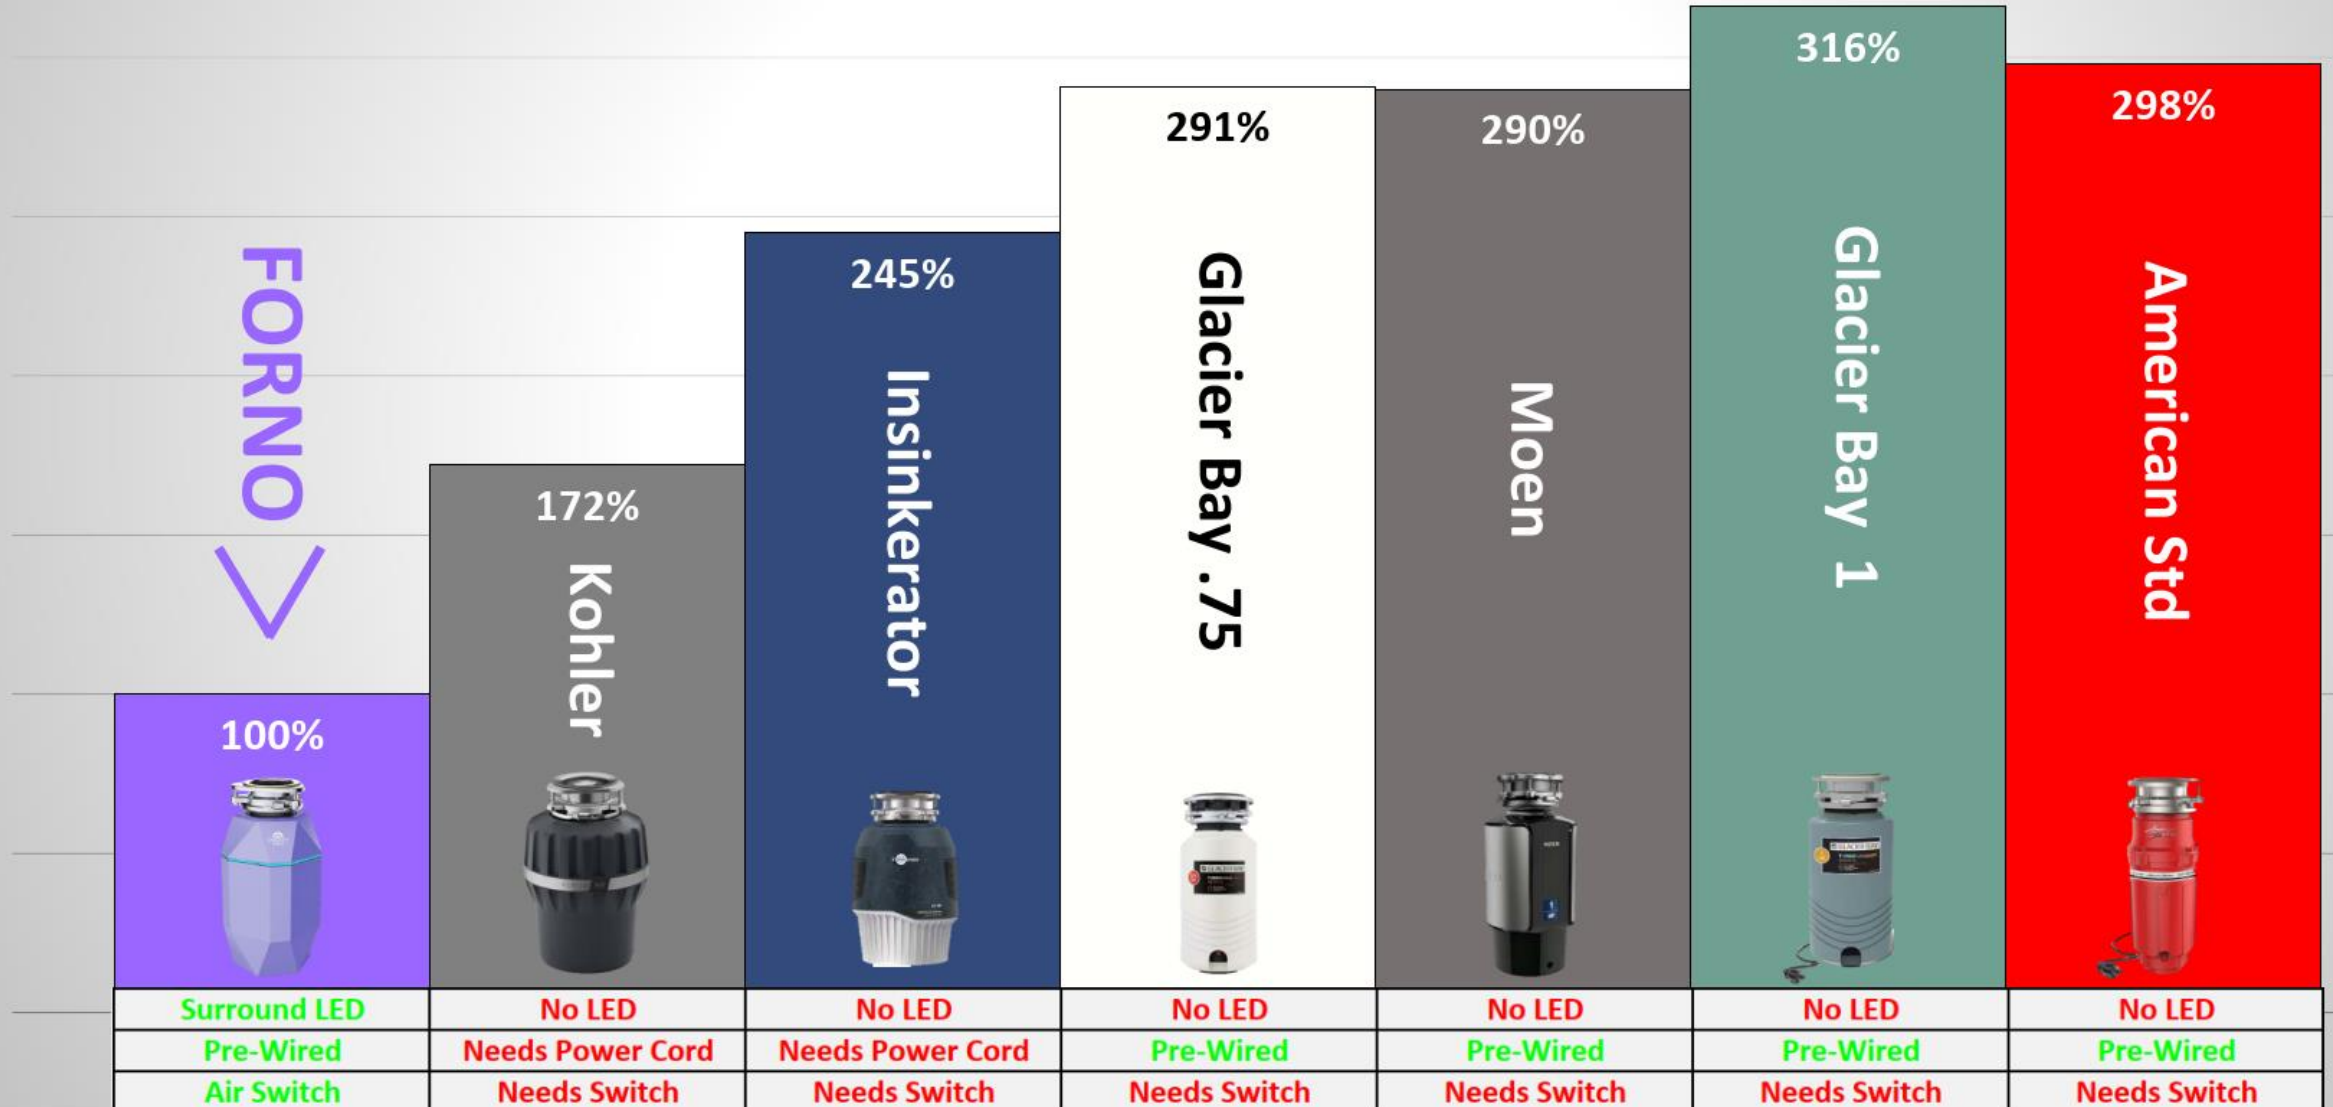

In CSA tests our Waste Disposers have been proven to be the quietest on the market!

Decibels (dB) is a measurement of sound output. The smaller the number, the quieter the sound is. The human ear perceives double the sound for every 10 dB.

Perceived Loudness With Water

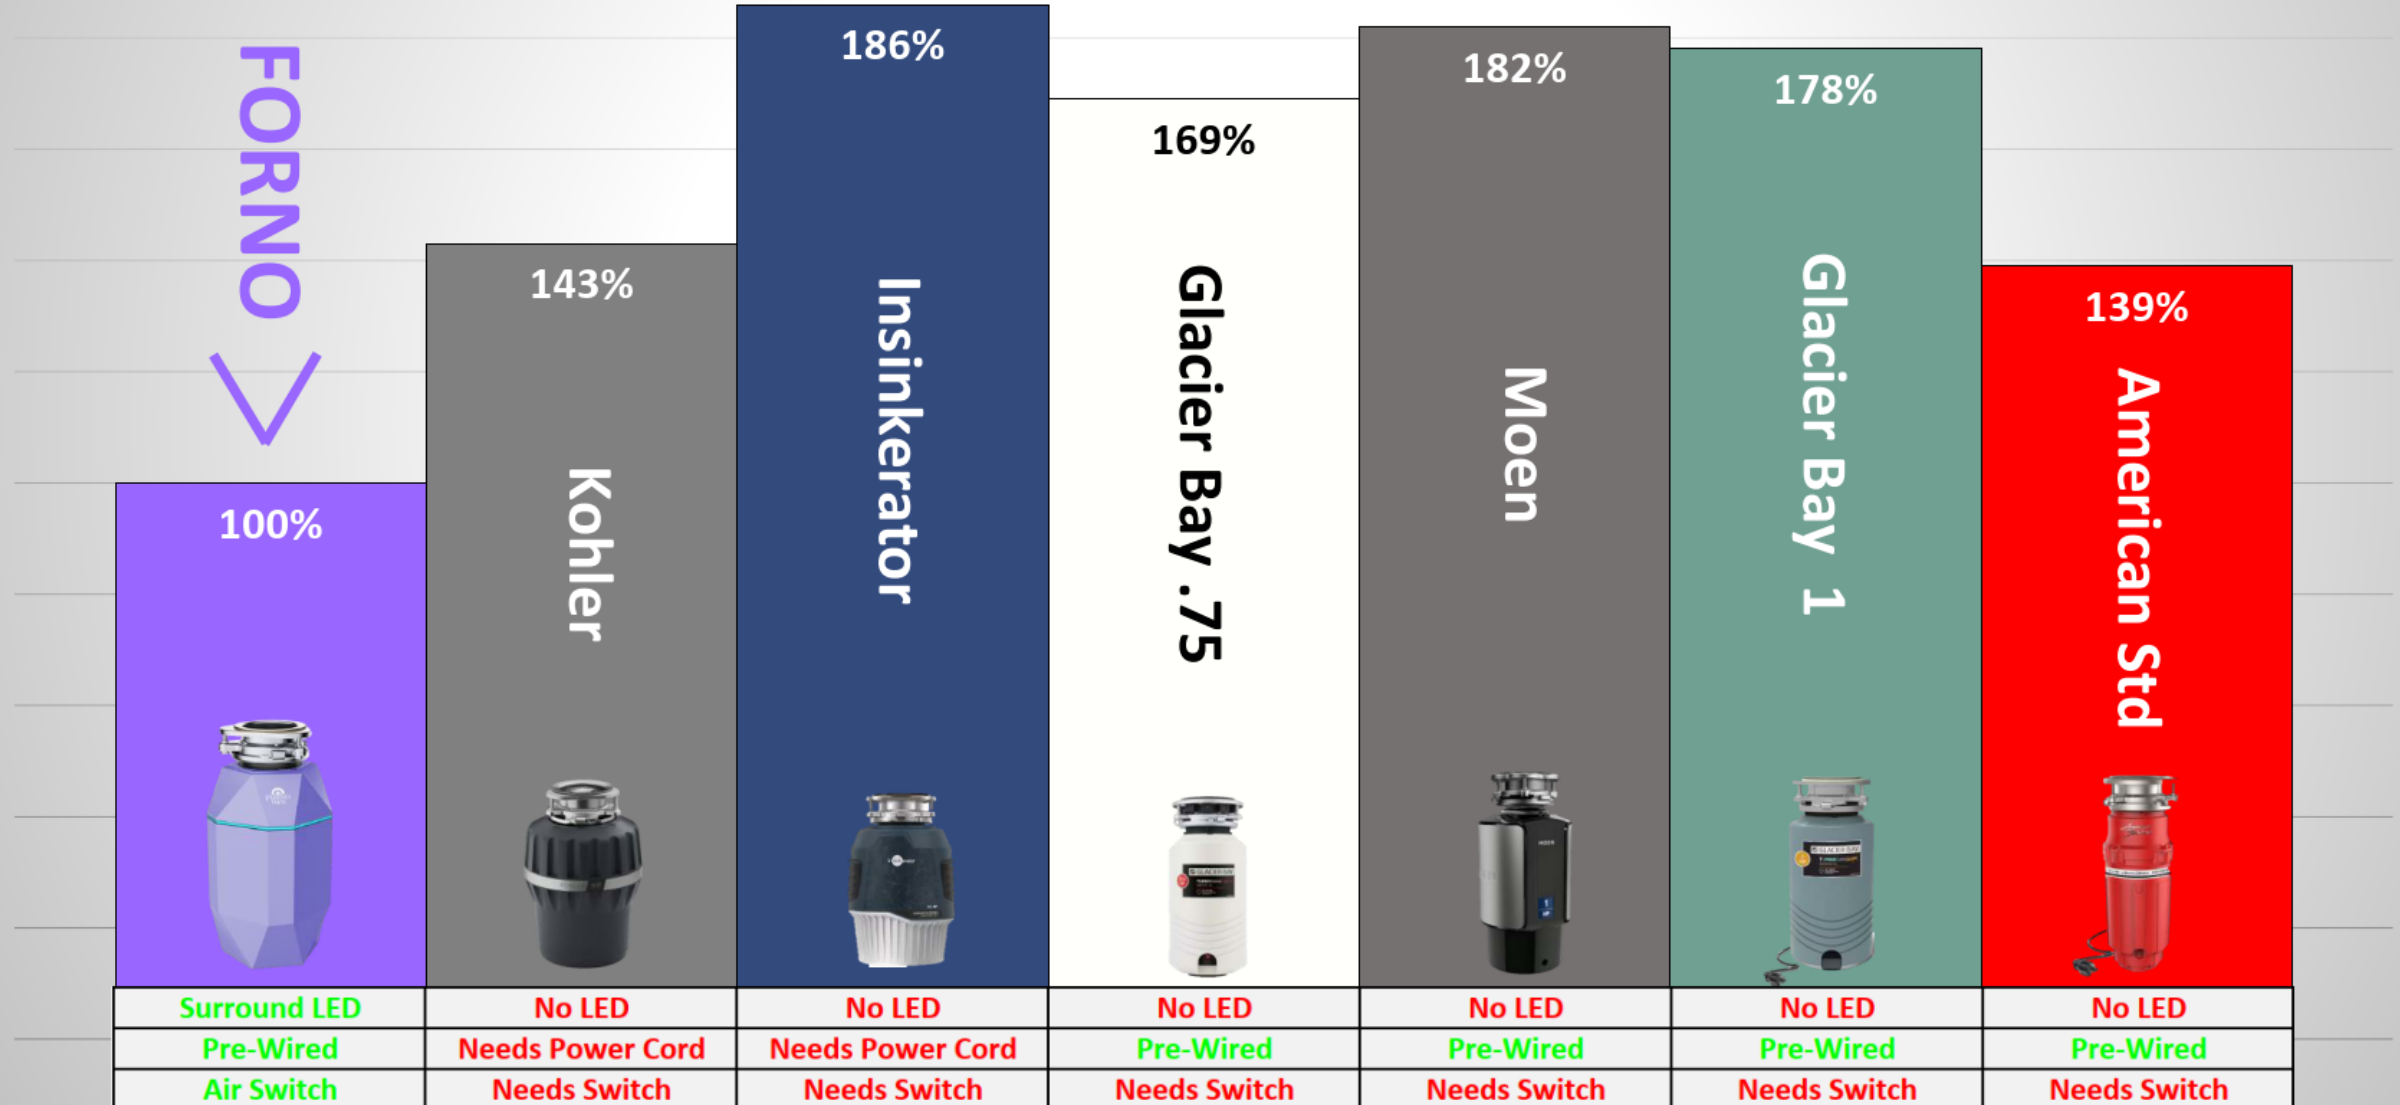

In CSA tests our Waste Disposers have been proven to be the quietest on the market!

Decibels (dB) is a measurement of sound output. The smaller the number, the quieter the sound is. The human ear perceives double the sound for every 10 dB.

Decibels (dB) is a measurement of sound output. The smaller the number, the quieter the sound is. The human ear perceives double the sound for every 10 dB.

3/4 HP DC Waste Disposer with Surround LED and integrated Air Switch

Specifications:

- 3/4 HP Brushed Permanent Magnet DC motor
- Surround LED with 3 Motion sensors single colour
- 4 Stage Grinding
- Grinding Chamber Capacity: 40 oz
- Passive Noise Cancellation
- Pre-Assembled Air ON/OFF Switch
- Dynamic Noise Suppressing Splash Guard
- Pre-Wired for quick installation and service
- N.W. 5.5 Kg.

Amethyst with Cool Blue LED

1 HP DC Waste Disposer with Surround LED and integrated Air Switch

Specifications:

- 1 HP Brushed Permanent Magnet DC motor
- Surround LED with 3 Motion sensors single colour
- 4 Stage Grinding
- Grinding Chamber Capacity: 40 oz
- Passive Noise Cancellation
- Pre-Assembled Air ON/OFF Switch
- Dynamic Noise Suppressing Splash Guard
- Pre-Wired for quick installation and service
- N.W. 5.8 Kg.
